LinkedIn: atul-malviya1902 | GitHub: atulmalviya1902

OBJECTIVE

To secure a challenging role in Artificial Intelligence, Data Science, or Data Analysis, leveraging my hands-on experience in machine learning, satellite data analysis, and Python to drive impactful, data-driven solutions for a growth-oriented organization.section.

TECHNICAL SKILLS

Programming:	Python, SQL
Libraries/Frameworks:	NumPy, Pandas, Matplotlib, Scikit-Learn, seaborn
Databases:	MySQL
Data visualization:	Power BI, Excel
Tools & Others:	Git,GitHub

EXPERIENCE

Trainee — Qubinaire Services Pvt. Ltd, Indore

- Developed practical skills in Python, SQL, Data Analysis, and Data Science through structured training and project-based learning.
- Performed data manipulation, analysis, and visualization using NumPy, Pandas, and Matplotlib.
- Applied data science concepts to mini-projects and case studies involving real-world datasets.

PROJECTS

Sales Performance Dashboard
Tech: SQL / Power BI
– Designed interactive dashboards to track sales KPIs, revenue trends, and customer insights.
– Improved decision-making by providing clear visualizations of growth patterns.

Customer Behavior Analysis
Tech: Python / numpy /SQL /Pandas / Matplotlib
– Analyzed customer purchase data to identify buying patterns and seasonal trends.
– Provided actionable insights to improve customer retention and targeting.

Rock vs Mine prediction
Tech: Python / NumPy / Pandas / Matplotlib
– Explored sonar dataset to identify distinguishing features between rocks and underwater mines.
– Generated statistical insights and visualizations to support classification tasks.

AI Disease Prediction System GitHub Repository link
Tech: Python / Machine Learning Streamlit/Scikit-learn
– Built an AI-powered disease prediction system to predict Diabetes and Heart Disease using machine learning models with high accuracy
– Developed an interactive Streamlit web application for real-time predictions, improving accessibility and supporting data-driven healthcare decisions

Loan Prediction System GitHub Repository link
Tech: Python / Machine Learning / Streamlit / Scikit-learn / Pandas / NumPy
– Developed an end-to-end Machine Learning application to predict loan approval status from applicant financial and personal information.
– Performed EDA, data cleaning, missing value imputation, and categorical feature encoding using Pandas and NumPy.
– Implemented a Random Forest Classifier achieving 85% test accuracy.
– Built and deployed an interactive Streamlit web app (Streamlit Community Cloud) with loan predictions, approval probability, and an analytics dashboard.

RELEVANT COURSEWORK

Data Analytics, Business Intelligence, Data Visualization, Machine Learning, Artificial Intelligence...

ACHIEVEMENTS

– Gold Medalist, State Karate Championship
– Gold Medalist, State Thai-boxing Championship
– Silver Medalist, State qwankido Championship

LEADERSHIP VOLUNTEERING

– Social Media Lead, Hackathon SVCE Innovixus Club

CERTIFICATIONS

– Qubinaire Services Pvt. Ltd
– AI ML Workshop – be10x

EDUCATION

RGPV : SVCE 2022 – 2026
Degree – B.Tech GPA: 7.25/10

Senior Secondary (M.P) 2022
Class XII – Science 72%

Secondary (M.P) 2020
Class X 78%

DECLARATION

I, Atul Malviya, hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I understand that any discrepancy found may lead to disqualification at any stage of the selection process.
